2386 Public speaking

A local parishioner spoke in support of a planning application he had just lodged with AVBC and wished to explain the background to his application and reasons for doing so. He introduced himself and explained that he and his family had moved back to the UK from Asia 15 months ago. Whilst there had been an application approximately 2 years ago on this historic site at Lea Hurst, which had raised local opposition, he wanted to reassure the Parish Council of his intentions. He was intending to restore the access track, the connection between the house and the village in the form that the late William Nightingale had originally planned it. He outlined that he was not aiming to create a drive for subsequent access for a housing development. The track would be a low style agricultural one around 2.5m wide with grass in the middle and used by very light traffic purely for his own family use.

The Council noted the comments. As the application had only just been posted on the AVBC

web portal and was not scheduled for consideration at tonight's meeting, the Council requested the Clerk to ask AVBC Planning team for an extension to their usual 21 day consultation period, to the end of the first week in August, to enable the Council to consider its response at an extraordinary meeting on 5th August.

Councillor David Taylor (AVBC & DCC) reported on complaints made to him and investigations he had undertaken in relation to the smell and flies at the Sewage Works, which sits next to the canal and the World Heritage site. He was advised that a major project was planned to upgrade the High Peak Sewage plant. An application was being prepared by Severn Trent and he read out the contents of a letter in this regard from DCC. He undertook that as the responsible Cabinet Member at AVBC for Public Health and Housing, he would be pressing hard to see this application come forward very soon from Severn Trent Water.
