April 2025

Dear Customer

We need to replace our access bridge

The access bridge to Matlock Sewage Treatment Works, near Cromford Canal, is showing its age and we need to replace it. Over the coming months you'll see our contractors Beaver Bridges working at the site, but before starting they'll need to install a temporary bridge over the top of the old one so they can work safely.

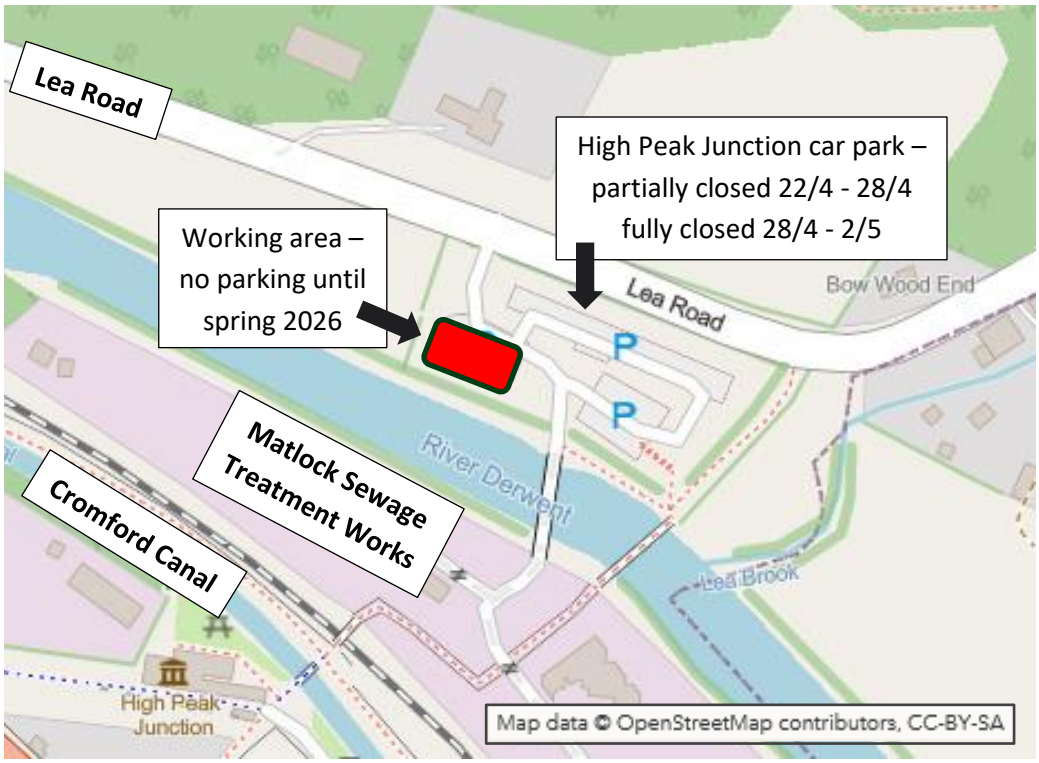

Important information

From 22 April 2025 High Peak Junction car park will be partially closed to allow the team to build the temporary bridge safely and **from 28 April 2025 until 2 May 2025 it will completely closed** during which time there will be a crane on site to lift the temporary bridge into place.

The car park will be reopened on 2 May 2025 barring the area shown in red on the map below, which will be fenced off for the duration of the project and used by the team to build the new bridge. The project is expected to be completed in spring 2026 when the new bridge will be installed and the old one removed. In between now and then I will write to you with updates at key stages.

The pedestrian footbridge over the River Derwent will remain open throughout these works.

Location of works

How can I find out more?

Get in touch with me directly on 07974 119705 within normal working hours or call our 24-hr customer care line on 0800 783 4444.

Yours faithfully

Christina Massey
